This page contains a list of IP addresses. The first column lists the IP address, the second column lists the number of connections, and the third column lists the number of bytes transferred. The top of the list shows the most frequent connections, such as 192.168.1.1, which is used for local network communication. Other significant entries include 10.0.0.1 and 192.168.0.1, which are also common for local networks. The list continues with various other IP addresses, including 8.8.8.8 (Google DNS), 1.1.1.1 (Cloudflare DNS), and 157.140.2.2 (Apple's services). The total number of connections is 4028, and the total number of bytes transferred is 4436.
